

University of Pittsburgh

Office of the Controller - General Accounting Department

SUBJECT: VALID PRISM REFERENCE VALUES

Only those numbers that fall in the range of values listed below may be used in the reference number segment of the account distribution.

NOTE: Due to the implementation of the new HR/Payroll information system, reference numbers may now be used with payroll subcodes. Payroll implemented a 32-character account number that is identical to a PRISM account number.

0000 through 10010	25004	36097	70010
