

**You Can Create Custom RNA Products
in the Fisher Science Punchout**

Fisher Scientific has now included a tool on their punchout that allows you to design oligos and custom RNA products including siRNA, miRNA, and several others. The tool makes purchasing Thermo Scientific Dharmacon products fast and easy.

Ordering Custom Products

1. Click on the Fisher Scientific punchout
2. Click on the RNAi Order button
 - The button is located on the left hand side of the page below the search box.
 - You will be transferred to the RNA ordering page

RNAi Reagents, qPCR Assays, Oligo Synthesis

Life science research requires products with exacting specifications. If you can't find the and many more.

Custom Oligos

Oligonucleotide Synthesis Service provides cust and purification levels. [Customize](#)

[Customize](#)

4. Click on **Customize** for customized oligos

OR

5. Click on **Order** for customized Thermo Scientific Dharmacon items

RNAi Reagents and qPCR Assays

Access the most complete, technologically adva custom siRNA and RNA synthesis. [Order](#)

Trademarks | Terms and Conditio

Custom Oligos

Sequence Name:	<input type="text"/>
Sequence: 5'	<input type="text"/>
Sequence Length:	<input type="text"/>
Modifications:	Add Modification
Scale:	10 nmole (60 mer limit) <input type="button" value="v"/>
Purification:	Salt-Free (5-125 mers) <input type="button" value="v"/>
Oligo Quantity:	1 <input type="text"/>
Order Reverse Complement:	No <input type="button" value="v"/>
Normalization Requested:	<p>Normalization allows you to specify the dry oligo amount or aqueous oligo concentration and volume. If aqueous, please specify water or TE in the notes field below.</p> No <input type="button" value="v"/>
Notes:	<input type="text"/>

Oligos can be orderd via two methods.

1. **Upload Oligos** - when clicking on the **Upload Oligos** button, you will be taken to another page that will allow you to upload an excel spreadsheet with your items. Complete instructions are located on the page.
2. **Add to Order** - fill out the Build Oligos form and click on **Add to Order**.

Both methods will add the required items into a cart for purchase

• 100% QC by mass spec
Click on "Add Modification" to select your probe

You Can Create Custom RNA Products in the Fisher Punchout, continued

RNAi Reagents and qPCR Assays

Once you have clicked on Order a new page will pop up that will provide you with several options and information for you to obtain your products. When prompted, be sure to “allow” unsecured items.

Support Center

Switch on to Solaris qPCR

Find your gene with the GENEius Product Search!

Search

Please use one of the following search terms:

- Ref Seq Accession (e.g. NM_181838, XM_240330)
- Gene ID (e.g. 672)
- Gene Symbol (e.g. BRCA1)
- Gene Description (e.g. cell division)
- Sanger ID or Accession (e.g. hsa-let-7b, MI0000063)
- Catalog No. (e.g. MQ-003478-00)

Products

- GENEius Search
- siRNA
- microRNA
- shRNA
- qPCR Assays
- RNAi Controls
- Transfection
- Custom Synthesis
- Ancillary Reagents

Tools

- Find Product Documentation
- Go to the siDESIGN Center

For security reasons you will be automatically logged out after 30 minutes of inactivity.

1. Search Box - Perform a search of the item you require
 - Be sure to follow Fisher’s suggested search terms to find the right item
2. Products - the products area has additional product information, spec sheets, and recommended items
3. Tools - Contains further information and advanced tools

You can review and make changes to your Genomics Order at anytime until you pull the order into PantherExpress. Once the order is in PantherExpress you will only be allowed to order or delete the items.
