

## What is the Supplier Showcase?

The Supplier Showcase is prominently featured across the top of the home page in PantherExpress. Every two weeks, we feature several suppliers in the Showcase. Each supplier in the showcase will show an icon which allows users to access a hosted catalog or punchout.

### Shop Punch-outs

The Supplier Showcase is intended to highlight suppliers you may not be familiar with in PantherExpress, diversity suppliers, new suppliers added to the system, and to make it easy for you to search for products.

When you click on the logo of a hosted catalog supplier, you are presented with a convenient search field. The search field will allow you to easily search the hosted catalog of the supplier, or to do a search by categories specific to the supplier.

We hope the Supplier Showcase will make purchasing from our featured hosted catalog suppliers easier!

*After a supplier has been removed from the Supplier Showcase you can still search for their products in the hosted catalog search area or by access their punchout in PantherExpress.*
